PROFESSIONAL SUMMARY

Motivated third-year B.Tech Computer Science and Engineering student with part-time experience as a Programming Instructor at ED24. Skilled in C, C++, Python, Java, and JavaScript, with knowledge of DBMS and ongoing learning in Backend Development. Seeking an entry-level opportunity in Python Development, Web Development, UI/UX, Data Entry, Data Cleaning, Data Processing, or other computer-related roles. Strong communication, problem-solving, teaching, and attention-to-detail skills with a willingness to learn and grow in a professional environment.

PROFESSIONAL EXPERIENCE

Programming Instructor (Part-Time) - ED24 **Present**

- Teach programming fundamentals and coding concepts through practical examples and exercises.
- Guide students in understanding programming logic and solving coding problems.
- Explain technical concepts clearly and assist students during practical programming sessions.
- Help students identify and correct errors in their programs and improve their problem-solving approach.
- Develop strong communication, teaching, mentoring, and technical problem-solving skills through regular instruction.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science and Engineering **3rd Year**

Indus University, Ahmedabad, Gujarat Expected Graduation: 2027-2028

TECHNICAL SKILLS

- **Programming:** C, C++, Python, Java, JavaScript
- **Web:** HTML, CSS, JavaScript, Responsive Design
- **Design:** UI/UX Design, User Interface Design, Clean and Simple Layouts
- **Database & Backend:** DBMS, Supabase, Backend Development (Currently Learning)
- **Data Skills:** Data Entry, Data Organization, Data Cleaning Concepts, Data Accuracy and Validation
- **Office Tools:** MS Excel, Google Sheets, PowerPoint

PROJECTS

ResumeInTwo - Live Resume Builder **2026**

Live Website | GitHub

- Built and launched a live resume maker - "No Prompt. Just Resume." - where users fill a simple form and download a ready resume, with no prompt writing needed.
- Offers field-wise resume templates and a clean, ATS-friendly A4 PDF download.
- Built with HTML, CSS and JavaScript, with Supabase as the backend database so resumes save to a shared database.
- Deployed live on Netlify and fixed a Safari / iOS preview overlap issue for mobile users.

Programming Practice & Coursework

- Practiced programming and problem-solving using C, C++, Python, Java, and JavaScript through self-learning and coursework, including functions, arrays, loops, and conditional statements.
- Studying DBMS and fundamental database concepts; currently learning Backend Development and building web applications.
